## Models venting electric, venting manual, fixed features

**Superior LoE3 Glass**  
Advanced LoE3 coating provides more daylight and better heat control for year-round comfort and energy savings.

- Visible light transmittance improves 10%.
- Solar heat gain improves 20%.

Patent-pending VELUX, "Deck Seal" provides an air and water barrier for a leak proof installation. The 1 1/4" flange/bracket sits directly on the roof deck with no gaps.

Pre-mounted **Pick&Click!** system brackets make the installation of sunscreen blinds a snap.

Factory pre-finished white frames and sashes provide for a high quality finish that eliminates the need for secondary high cost trips by a painter.

Factory installed operators for venting and venting electric skylights eliminate the need for field-installed operators and multiple wire connections.

Mortise and tenon joints for stability in the frame.

Venting electric skylights comes with 20 feet of standard wire.

Externally mounted rain-sensor.

Self programming RF remote with advanced control options.

### Other features:

The pre-attached perimeter flange with a durable, closed-cell foam gasket seals tight to the roof decking.

Tighter rough opening, for a warmer installation.

Advanced silicone glazing sealant around glass and frame connection is impervious to water and air and will last the life of the skylight.

Positioning notches built into the Deck Seal provide a simplified alignment method that can be performed on the roof.

Unique condensation gutters and gaskets are incorporated into the skylight to catch and channel condensation out of the home.

Full range of blinds, controls and accessories for easy installation.

Blackout blind blocks the light

Roller blind diffuses the light

Venetian blind style and comfort

Corner key design closes perceived water hazard.

No cladding screws and only one piece to remove during installation for less time and greater simplicity while installing the skylight on the roof.
